

Cibēs

CHALLENGER

LIFT SOLUTIONS FOR EVERY BUILDING

WARM WOOD

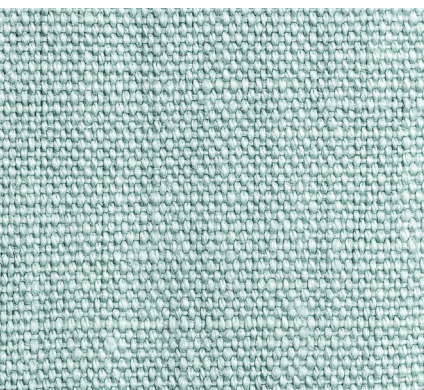

Cibes Challenger Wood offers you the choice between blonde oak or honey coloured bamboo, two elegant woods with different character and grain.

OAK

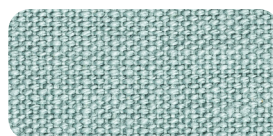

BAMBOO

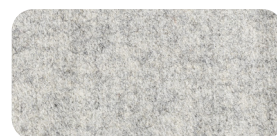

SOFT TEXTILE

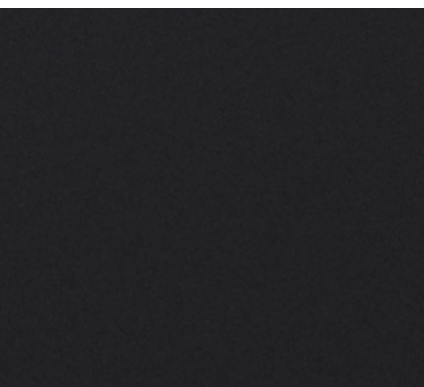

Cover the back panel of the platform with elegant, light blue linen or warm, grey wool to add a soft and sophisticated touch to your lift.

LINEN

WOOL

COOL METAL

Our Metal design concept offers you a very clean and timeless look, as well as almost infinite design possibilities in terms of colour combinations.

ECOSILENT DRIVE SYSTEM

DRIVE UNIT

To ensure quiet and energy-efficient operation, the EcoSilent drive unit has a special engine, as well as adapted transmission and brakes.

LIFTING SCREW

The lifting screw has a 3 x times higher pitch and even screw joints for smooth, comfortable and virtually soundless travel.

ROLLER GUIDE SHOES

Unique roller guide shoes act as interface between the guides and the platform. The roller guide shoes reduce friction by 90%.

SOUND INSULATION

The drive unit is enclosed in an elegant, soundproof metal casing, designed to reduce noise and cover the drive unit.
