1405 x 2480	1865 x 2620
1105 x 2180	1565 x 2320

# Cibes Basics

### EASY TO INSTALL

Cibes Extra is an economical solution. The unit is easy to install does not require a separate machine room. A traditional concrete shaft enclosure is not necessary as the unit features its own painted steel shaft.

Cibes Extra can be installed in a short period of time and claims the fastest installation record on the market for a product of its kind.

### LOW MAINTENANCE AND SERVICE COSTS

In addition to low installation costs, the Cibes Extra has low operation and maintenance costs. The platform lift is delivered complete with an insulated prefabricated shaft made of painted steel panels or toughened laminated safety glass panels as an option.

### CERTIFIED QUALITY PRODUCT

Cibes Extra conforms to the relevant compulsory safety requirements of the European Machinery Directive 2006/42/EC.

The lift is CE marked and is sent with a Declaration of Conformity.
